

Preflight Workshop - Going Beyond the Preflight

This presentation takes you through the preflight of a Cessna 172 aircraft in accordance with Manufacturer's preflight checklist. Using photos, preflight checklist and other information you will virtually preflight the Cessna 172. Once completed we will discuss what was spotted on the preflight and items not discovered. There will be a discussion on the effectiveness of that particular preflight and what you can do to improve your own preflight inspections.

Directions: The EAA hangar is next door to Susanville Aviation

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
